

Sales Performance Report

Executive Summary

This report analyses sales transactions from 1 January 2025 to 20 January 2025. It summarizes revenue, profit, product performance, regional performance and daily sales trends.

Key Performance Indicators

Total Sales: \$18,990
Total Profit: \$4,928
Average Sale: \$949.50
Highest Sale: \$1,600
Lowest Sale: \$600

Sales by Product

The bar chart compares total sales for each product. Laptop generated the highest revenue (\$7,070), making it the best-performing product. Monitors recorded the lowest sales, suggesting opportunities to improve demand through pricing or marketing.

Sales by Region

Sales Distribution by Region

The regional distribution shows that the North region contributed the largest share of sales (\$7,070). Other regions contributed smaller but relatively balanced portions of revenue, indicating that sales are spread across multiple markets.

Daily Sales Trend

Daily sales generally trend upward across the reporting period, despite small day-to-day fluctuations. The final days record the highest sales values, suggesting improving business performance over time.

Business Insights

- Focus inventory on **Laptop**, the strongest-selling product.
- Maintain investment in the **North** region while exploring growth opportunities elsewhere.
- Monitor lower-performing products to identify pricing or promotional improvements.
- Continue tracking daily sales to identify seasonal patterns and support forecasting.

Conclusion

Overall, the business demonstrated healthy sales and profitability during the reporting period. The charts and KPIs indicate strong product performance, balanced regional contributions, and an encouraging upward sales trend that can support future strategic planning.
